

Aldo Leopold Charter School

Silver City, New Mexico

November 26, 2018

Dear Aldo student family-

On December 14th the Junior and Senior Physical science students will be traveling to Las Cruces, NM to tour research labs and learn about the scientific research being done at NMSU. This is an excellent opportunity for the students to explore potential research interests for their own futures, learn about the groundbreaking research being done in our own state, and to familiarize themselves with what college has to offer (whether they should choose to go to NMSU or some other school, the basics of University life are pretty much the same).

This is a school trip so students can get internship credit (but not pay) for that day as long as they fill out the "Experiential Education" sheet for Guy. If a student has a commitment they cannot miss that day, I will need a signed letter explaining why the student cannot attend this school trip (seniors who attended the trip last year are welcome but not required to attend).

We will depart from the school at 8:00 am and return between 7:30- 8:00pm. Students will need to bring a sack lunch or money to buy lunch (we will go out to eat as a group) and money for dinner. I suggest approximately \$15 for the day. If this is a hardship, please let me know in advance and I will make sure the student has something to eat that day.

Please contact me if you have any questions or concerns.

Thank you,

-Allison Heneghan
