

Summer YCC 2022: May 23-June 10

Starting pay: \$10.50 per hour

FOR ALL CREWS: You will need the following: lunch, water, hat, sturdy shoes, pants that can get dirty. I will provide you with a YCC uniform shirt. A complete application is REQUIRED to reserve your spot.

**Complete applications include providing a social security card and a passport or picture ID and a birth certificate.** You will also need banking information for direct deposit. We highly recommend that crew members open a bank account of their own.

**Murals Crew: Diana Ingalls**

Hours: M-F 9 AM-4PM 20 crew members

Description of the work: crew members will work at Penny Park to restore a mural, the WNMU Child Development Center to install a tile and paint mural based on fairytale characters and begin a mural on the outside of the Little Toad Creek Brewery with featured artist Karen Carr.

**Garden Crew at Big Ditch Park: Tricia Hurley**

Hours: 8 AM-2PM M-Th 10 crew members

This crew will continue their work to establish beds and plant native plant species for a major beautification project in the heart of downtown.

**Garden Crew at Waterworks: Matthew Gruszka**

10 crew members

Hours: 8AM-2PM M-F

Crew members will establish new gardens and maintain existing gardens at the historic Waterworks building next Jose Barrios Elementary. This site is being developed as a Continental Divide Trail waystation for thru-hikers and a historic site with teaching gardens.

**Garden Crew at Ritch Hall on the WNMU Campus: Nathan Shay**

10 crew members

Hours: M-F 8AM-2PM

This crew will learn about soil enrichment strategies like sheet mulching and work with native plants to design and install the gardens in the outdoor classroom/recreation area of Aldo Leopold Charter School.

**Eco-monitoring crew: Iron Bridge with Mike Fugagli**

10 crew members

Hours: M-F 7:00 AM – 3:30 PM

Crew members will travel daily to the Iron Bridge site near Gila to collect wildlife and water quality data as part of an ongoing longitudinal climate study. This data will be provided to a number of state and national agencies.

**WNMU Swallow monitoring project with Carol Ann Fugagli and Mark Martinez:**

10 crew members

Hours: M-F 8:00 AM-2:30 PM

In collaboration with Dr. Livingston crew members will be gathering data on nesting swallows on the WNMU campus and in the greater WNMU area for preservation and education purposes.

Crew members will be offered cross training opportunities and engage at both eco-monitoring sites.

**Trails Crew: Waterworks with JB Bjornstad**

10 crew members (rising sophomores and up only)

Hours: M-F 8 AM-3:30PM

Crew members will work to establish a trail connecting the Waterworks site to Georgia Street. Crew members will learn how design and install a hiking trail and how to work with and maintain various hand tools.

**Trails crew: Ritch Hall on the WNMU Campus with Toxtli Sanchez**

10 crew members (rising sophomores and up only)

Hours: M-F 8 AM-3:30PM

Crew members will continue to work on establishing water catchment systems, erosion control structures, and trails to enhance the student recreation area below Ritch Hall. This crew has a particular focus in rock work.
